Is Laser Skirmish Safe?

Although referred to as 'laser skirmish' there are no actual lasers involved. The weapons we use are safe - there are no projectiles. The weapons emit an infra-red beam very similar to the remote controls found in most homes. They are a clean and safe alternative to paint ball. Before each session a weapon and safety brief will be given and it is up to the individual to abide by the rules for their safety and the safety of other players.

Staff hold a current Senior First Aid certificate and a trained staff member will be in attendance. We will not tolerate physical contact or any behaviour that could cause injury to any person.
